FEES: COMPLETE SECTION I OR SECTION II

SECTION I. FEES: Open pit operators and those mining me

tons of sand and/or gravel:

1. To compute the site fee complete the columns and lines below:

[illegible]

2. Acreage fee \$5 X _____ Number of acres bonded \$ _____

3. Annual permit fee..... \$ 500

4. Total Fee (Add Totals from 1, 2 and 3)..... \$ _____

NOTE: If Total Fee exceeds \$2,500.00 then pay only \$ 2,500

SECTION II. FEES: Sand or gravel operators mining less than 5,000 tons per year:

1. Annual permit fee..... \$ 300

III. BONDING - for all except in-stream mine sites:

A. For sand and gravel operators mining less than 5,000 tons/year:

Number of new acres _____ X \$500 per acre \$ _____

B. For **ALL** other open pit operations:

| | |
|--------------------------|-----------------|
| Minimum per permit | \$ 8,000 |
|--------------------------|-----------------|

Acreage over eight acres _____ X \$500 per acre \$

TOTAL BONDING REQUIRED \$

☐ Check here if adequate bonding is already posted.

LAND RECLAMATION COMMISSION

STREAM PROTECTION PLAN - 10 CSR 40-10.020(2)(D)4

P.O. BOX 176
JEFFERSON CITY, MO 65102-0176

TYPE OF PLAN (CHECK ONE): ☐ SHORT TERM, FOR ONE PERMIT YEAR
☒ LONG TERM, FOR PERIOD THROUGH DATE: COMPANY NAME: Ronnie Back Farms

DESCRIPTION OF STREAM CONDITION PRIOR TO LAND RECLAMATION COMMISSION PERMITTING (BY APPLICANT OR PRIOR OPERATOR), INCLUDING BANK CONDITION, BANK VEGETATION AND WATER QUALITY.

The sand & gravel removal areas involves a one-quarter acre, ^{and two 1/2 acre} gravel bars south of Highway E. This stretch of Brush Creek is bordered by a pasture on either side, although a narrow width of trees border each side of the creek. The banks are steep but well vegetated. Water quality in the creek is good. The exposed portion of the gravel bars that I intend to mine is loosely packed and contains no permanent vegetation. There is some annual weeds that appear in summer but are usually gone by the next Spring. There is already an access road to the gravel bar so no trees will have to be removed.

DESCRIBE METHODS TO RESTRICT DAMAGE TO STREAM BANKS OR STREAM BANK VEGETATION.

Excavations between the stream banks will be managed such that water flow is not redirected toward the stream banks. An undisturbed buffer of 10 feet will be maintained between the gravel removal areas and the permanent bank vegetation. There will be no damage to the permanent vegetation of the stream banks.

RECEIVED

AUG 27 2004

MISSOURI LAND
RECLAMATION COMMISSION

ADDS USED TO MINIMIZE IMPACTS ON THE STREAM ENVIRONMENTS, CONFINING ACTIVE MINING OPERATIONS TO THE GRAVEL BARS RATHER THAN FLOWING WATER AND RESTRICTING HAUL ROADS THROUGH FLOWING WATER.

Gravel removal will be restricted to the exposed portions of the gravel bars. We will shave off the top of the gravel bars to a depth no deeper than the normal water level. If water is noticed in the tracks of our equipment we will not remove gravel any deeper. This will avoid causing erosion of the stream bank and channel at the mining site and upstream (head-cutting) Although we must cross the stream to access Site #1, we will only cross in one place.

PERMIT NUMBER

0949

SITE NUMBER AND/OR NAME

Site #1, #2, & #3

DESCRIBE METHODS USED TO PROTECT WATER QUALITY, SUCH AS INSTALLING EROSION CONTROL DEVICES OR OTHER INFORMATION.

Gravel removal will be restricted to periods of low flow. There will be no destruction of stream side vegetation. A buffer strip of undisturbed gravel will be left between the excavation and the flowing portion of the stream.

RECLAMATION COMMISSION

By my signature, I attest to the following:

- 1) All statements made in this Stream Protection Plan form are correct, complete and true to the best of my knowledge.
- 2) I or the company I am authorized to represent intend(s) to protect the stream environment and remove sand and gravel in accordance with this plan, and in accordance with The Land Reclamation Act, Sections 444.760 through 444.790, RSMo (Supp. 2001), and all rules, regulations, orders, decisions, and permits of the Missouri Land Reclamation Commission pertaining to my company's surface mining operation.
- 3) I have a valid agreement with all landowners which gives me the right to grant access to the Director of the Missouri Land Reclamation Commission and his authorized representatives, and I grant such access, and further where I have no right to grant such access, I have attached signed affidavits from the landowners granting such access.

Attach the following documents to the Stream Protection Plan form:

MISSOURI LAND
RECLAMATION COMMISSION

I. LOCATOR MAP - two copies required.

The map must be of sufficient scale to locate and distinguish the permit boundary from other mine sites in the area. Please mark the access route from the nearest public road to the site so that our inspector can visit the mine. The locator map may be prepared on an original or clearly copied Missouri Highway Department County map, United States Geological Survey (USGS) 7-minute topographic map (map scale 1" = 2,000'), county assessor map or an **up-to-date county ownership plat**. In general, operators submit an up-to-date county ownership plat map to satisfy adjacent property owner notification letter requirements.

The locator map must show the following:

1. The permit area in relation to state or county roads and towns or cities in the general area.
2. North arrow, and map scale.
3. Company name, county, mine or site name, legal description (section, township, range), date of map preparation, and preparer's name.

II. DETAIL MAP - two copies required.

The Detail Map must be at scale of one inch to six hundred sixty feet (1" = 660') or larger (for example, 1" = 400', 1" = 200'). An original or clearly copied, up-to-date Agricultural Stabilization Conservation Service (ASCS) aerial photo (1" = 660') may be used as a base map.

The Detail Map must show the following:

1. The permit boundary. When submitting a long-term Stream Protection Plan, the boundary of the long-term Stream Protection Plan area must be identified on the detail map. The acreage associated with each boundary must be illustrated on the detail map.
2. Property lines and names of landowners, owners of surface and subsurface rights within the Stream Protection Plan area and names of all owners of adjacent properties.
3. Approximate positions of public roads located in or within one hundred feet (100') of the permit area.
4. The location terraces, waterways, and diversions within the Stream Protection Plan area.
5. The location of acreage within the Stream Protection Plan boundary.
6. Company name, permit number, county, site name or number, legal description (section, township, and range), date of map preparation, preparer's name, north arrow, and map scale.
7. Creeks or streams in or within one hundred feet (100') of the permit area.
8. Areas within the permit boundary mined prior to August 28, 1990.
9. Locations of abandoned underground or surface mines in, or adjacent to, the permit area.
10. Locations of acid or toxic-forming materials.
11. Positions of erosion and sediment control devices or structures.
12. Location of any structures (buildings, etc.) and natural or cultural features that require protection.
